**SUBMISSION OF SUBSTITUTE SPECIFICATION**

Dear Sir:

Enclosed are (1) an originally filed specification, (2) a marked up copy of the originally filed specification, and (3) a clean copy of the substituted specification in clean form without marking as to amended material. The original specification was mailed, under Certificate of Express Mailing (Express Mail No. EV25 0591 986U S) and accorded Serial No. 10/602,203 with a filing date of June 24, 2003. The originally mailed specification included handwritten notes. The marked up copy of the originally filed specification includes further changes to the specification to correct clerical error. The attached substitute, with Arabic numerals for each paragraph, is being submitted to improve legibility of the originally filed specification. No new matter is believed to have been added.

The USPTO is respectfully requested to consider the amendment as properly mailed on the date as originally set forth in the Certificate of Mailing. However, in the event the Commissioner determines that an extension is required, he is requested to consider this letter
